Dear Michelle and Nica—

On behalf of Pechiney Plastics Packaging Inc. (PPPI) and pursuant to the Remedial Design/Remedial Action Consent Decree (CD)¹, this correspondence provides notification of off-site transportation of soils generated from OU3 Pre-design Investigation (PDI) and SVE monitoring point, and POHMW49 installations in spring-summer 2018. Two roll-off boxes of soils (spoils from the borings) are scheduled to be hauled to CYCLE-CHEM INC. facility located at 217 SOUTH 1ST STREET in ELIZABETH NJ on Tuesday August 7, 2018.

A copy of correspondence with acceptance of this facility to receive these wastes was provided in the attached email correspondence dated July 23, 2018 from the USEPA Region 2 Off-Site Rule Coordinator.

Please do not hesitate to contact me with any questions on this notification.

¹ In the matter of United States of America v. PPPI (Civil Action No. 09-cv-05692) and United States of America v Bristol Myers Squibb Company, et. Al. (Civil Action No. 13-cv-05798) effective March 11, 2015.
